Thank you, Sharon. The document that is attached is made up of 3 separate documents:

- Sample Siting Plan for Coliforms and the Chemicals,
- Invoices for analyses conducted in 2013 and 2014, and
- Arsenic data from samples collected on August 27, 2013.

We will log in the 2013 arsenic data since it appears we have no arsenic data from 2013 in our database.
